Title: Zelphar's Notes

Author: Zelphar the Elf

I have moved mountains
trying to discover the
secrets of the Orc Blood
God... So much blood
spilled to confirm my
worst fears...

The knowledge I gained
about prognostication
from Empath Abbey, the
Lycaeum, and Serpent's
Hold confirmed it... One
does not 'summon' the
Blood God to fulfill its
prophesized return. One
must -embody- it...

Can I really do this? Can
I lose myself to this
horror when all I wished
for was to be in its
service?
